

## Participate in Envision Cache Valley!

*Your Values, Your Voice,  
Your Vision*

The Envision Cache Valley process is a once-in-a-generation opportunity to explore growth-related issues and to think together about what we want Cache Valley to be like in the future. This process reflects the values of the public, the voice of the public, and the vision of the public. Broad public participation and ownership is the key to a successful process.

Increasingly, Cache Valley is becoming an interdependent region. We're all in this together. The decisions that we make locally affect everyone regionally. We all breathe the same air, drive the same roads, share a common economy, and enjoy the same natural resources. The Envision Cache Valley process enables us to take a regional look at our future.

The decisions that we make today affect our neighbors and future generations. What kind of legacy do we want to create for our children and grandchildren?

If we can create a common dream for the future, we can move beyond asking, "What do we want?" and move toward asking, "How do we get there?" Broad public participation leads to a politically actionable vision and implementation strategy. We know that growth will occur. Let's create a legacy and realize our dream.

*A steering committee of local citizens is heading Envision Cache Valley. Envision Utah, a nonprofit organization with leading edge visioning skills, is facilitating the process.*
